Awareness 5K Run/Walk September, 2020

Mission: The Chelsea Hutchison Foundation grants comfort and hope to those affected by epilepsy through providing monitoring resources, vital information, and a safe haven for conversation and community. Our main goal is to raise awareness of SUDEP (Sudden Unexpected Death in Epilepsy) and to make a positive difference in the lives of individuals and families living with epilepsy. We raise funds to provide education about SUDEP and to provide seizure response service dog grants and movement monitors that help to protect against SUDEP. We stay up-to-date on current trends in medical technology in order to be able to provide the most effective devices as they become available. We respect the value and quality of life of every person living with epilepsy. We are dedicated to providing opportunities that allow individuals and families greater independence, increased confidence, ability to enjoy social environments, and community understanding.

Overview

STOMP Out Epilepsy and SUDEP began in Colorado in September 2010, on a mission to raise public awareness that seizures are serious and not to be taken lightly. Several STOMPS will take place across the country this September. Virtual walkers will join us in small groups as well. You won't want to miss out. This is the only national SUDEP Awareness Walk that exists! STOMP is a fun family walk with some of the walks including 5K timed runs complete with food, face-painting, music, and entertainment!

Become a sponsor of STOMP and help us help families living with epilepsy. Epilepsy affects over three million Americans of all ages—more than multiple sclerosis, cerebral palsy, muscular dystrophy, and Parkinson's disease **combined!** Almost 500 new cases of epilepsy are diagnosed every day and it is estimated that up to 50,000 Americans die from SUDEP (Sudden Unexpected Death in Epilepsy) and seizure-related causes every year in the United States.

Funds raised at STOMP will provide seizure-response service dog grants and life-saving movement monitors for those in need. You may ask why we provide funding for these items. It's because they are not covered by any insurance companies. In addition, we grant wish trips to Epilepsy Awareness Educational Expo and Day at Disneyland to those who could not otherwise afford to participate. To date, we have had the privilege of providing 130 grants for seizure-response service dogs, over 950 life-saving monitors, and we have granted 82 families with all major expense paid wish trips to participate in Epilepsy Awareness Expo and Day at Disneyland.

The Chelsea Hutchison Foundation is a 501(C)3 Non-Profit Organization. For tax purposes, The Chelsea Hutchison Foundation Federal ID is: #27-1317638. Please consult your tax advisor regarding the deductibility of your donation.

Why us?

Besides being the first SUDEP awareness organization to provide seizure-response service dogs, The Chelsea Hutchison Foundation is a leader in epilepsy support and SUDEP awareness, placing an emphasis on empowering patients and their families. Consider the following:

- **The Chelsea Hutchison Foundation focuses first and foremost on supporting patients in becoming their own advocates** through education, support, and resources. The Chelsea Hutchison Foundation operates on the belief that informing and empowering people at the grassroots level can create immense change very quickly.
- **The Chelsea Hutchison Foundation ensures that ALL in need will be served** by helping people on a first-come, first-served basis rather than case-by-case, assuring that anyone who feels they need help—and may not qualify elsewhere—receives help needed. While other foundations require individuals to experience a certain number of seizures per month to qualify, The Chelsea Hutchison Foundation recognizes that SUDEP can happen during any seizure, even those experienced relatively infrequently. Therefore, The Chelsea Hutchison Foundation strives to provide all individuals and families with the same level of care and support.
- **The Chelsea Hutchison Foundation is a leader in providing grants for seizure-response dogs and placing monitoring equipment in homes**, allowing families throughout the country access to a service they may otherwise miss. When formed in 2009, The Chelsea Hutchison Foundation was the first organization in the United States to provide grants for seizure-response dogs and continues today to provide the highest level of funding amongst other organizations.
- **The Chelsea Hutchison Foundation creates community.** The Chelsea Hutchison Foundation is important for its work in educating patients, their families, and their societies in this common yet often preventable phenomenon. Not only do patients and their families directly benefit from the services of The Chelsea Hutchison Foundation, but society at large remains more whole when its members are supported and well-cared-for. Teachers, friends, workers, medical practitioners, and other members all benefit from a life saved. The more we know, the more support a community can provide its members and the more it will benefit from their presence and contributions.

2020 STOMP Locations

New Jersey, Collingswood	September 26, 2020, Cooper River Park Jessebell Luciano, jessyl3686@gmail.com , 856.397.2918
